STB Installation Guide
INDEX

Remote Control

Navigation Controls

UP

LEFT OK RIGHT

DOWN

Google Assistant

Virtual assistant powered by Google's search engine.

Press and hold, then speak into microphone near top of the remote.

Settings

Opens the device settings.

Should only be used by admin or if instructed to by support technician.

Back

Go back to the screen you were on previously.

Helpful if you end up somewhere unfamiliar.

Home

Sends you back to the default home page.

In this case, it would send you back to **RallyTV Home**.

TV

Will open and bring you to the RallyTV app.

Set-top Box (STB)
DC 12V	LAN	HDMI
AV	OPTICAL	USB-C
MICRO SD	USB 2.0	USB 3.0

STB First-time Setup

1 **Once your STB is all plugged in, follow the remote pairing instructions on your TV** (make sure you're on the right HDMI)
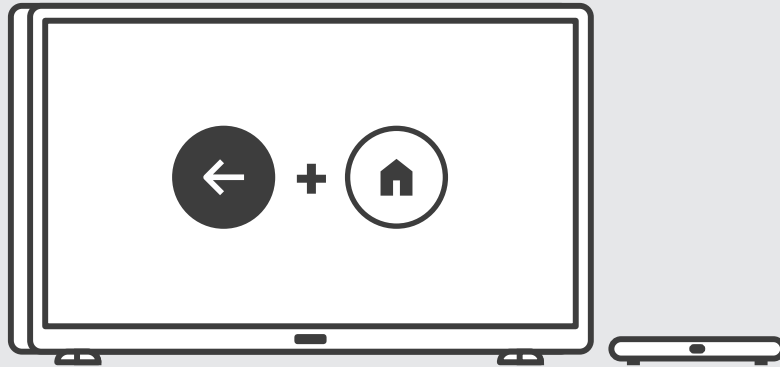

2 **With your remote paired to your STB, select your preferred language for the device** (it can be changed later on)

Welcome

English (US)
Afrikaans
Català
Čeština
Dansk

3 **Skip 'Quick set up your TV with your Android phone'**
(you may continue if you're familiar with this function)

Quick setup?   Continue
Skip
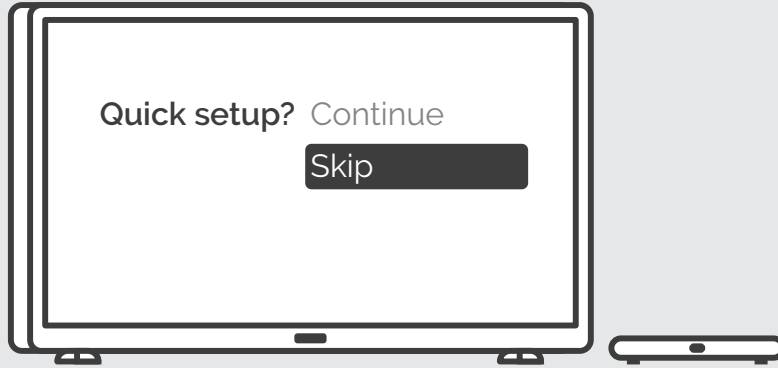

4 **Connect to your unit's Wi-Fi network**

Wi-Fi   Rally123
Neighbour23
Jim's Hotspot
Hub7364
Hub226

5 **Sign in with your Google account** (if you do not have a Google
account, you will need to follow the steps to create one)

6   Accept the Google Terms of Service

7   **Accept the Google Services** (you may want to uncheck 'Use location' and 'Help improve Android')

8   Select 'Not now' for Google Assistant

Turn on
Not now
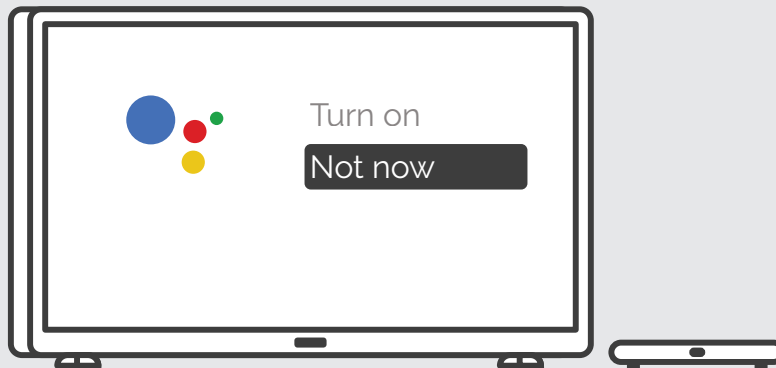

9   Select 'Continue' (Google Assistant will be set up later)

10   **Select a name for your STB or enter a custom name** (how your STB will be shown on your network)

11 Select either to install all apps available, or choose individual apps you'd like on your STB, then select 'Continue'

☐ Install All   Continue
☑ Disney+
☐ DAZN
☐ ESPN
☐ Netflix
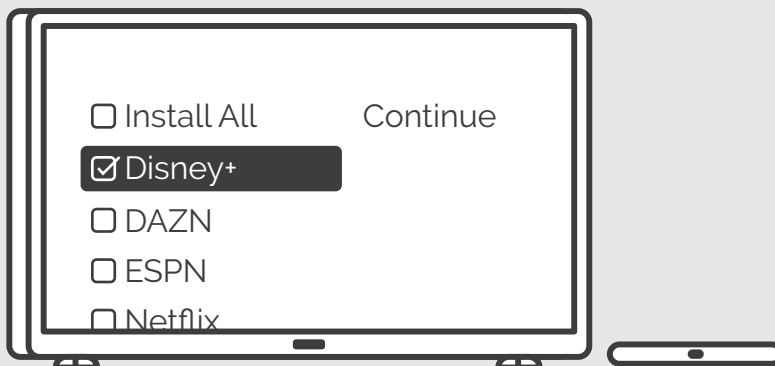

12 You can scroll through the walk through or hit 'OK' to proceed

13 Select OFF for 'Low power sleep mode' (selecting ON may take your STB longer to come out of sleep mode)

Sign-in to / Create Google Account

You'll need a Google account to access the Google Play Store

Tip: You don't need a Gmail account to create a Google account.
You can use your non-Gmail email address to create one instead.

1 Click the 'Settings' button on your remote and then click on 'Accounts' in the menu

Settings

Network

Accounts

Apps

Device

Accessories
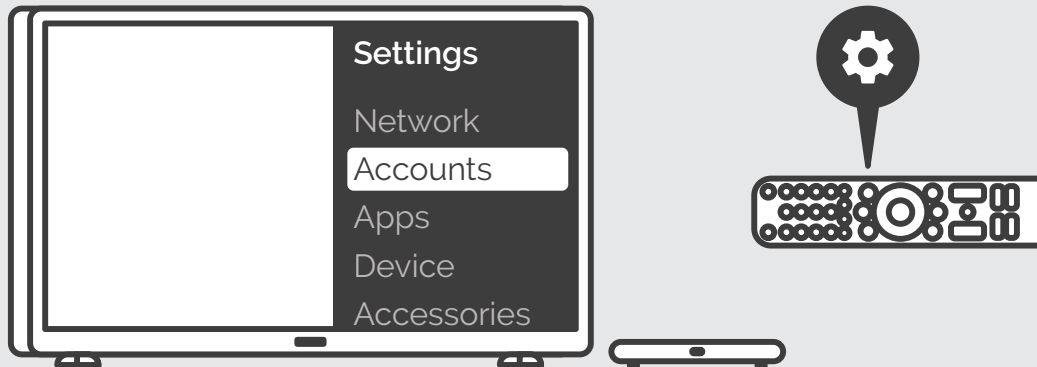

2 **Choose account type** (for our purposes, click 'Google')

Google

Other

3 Click 'Sign-in'

4 You can choose to sign in using your smartphone/computer, or on the TV by using the remote

Google
Phone

Remote

This guide will follow the 'Remote' option
Choose 'Use your phone or computer' at your own discretion

5 If you already have a Google account continue signing in, otherwise click 'Create account' on the bottom left

Google

Email or phone

Create account   Next
6 Think of and enter a username for your Google account, then click 'Next' (this username will become your Gmail address)

7   Enter your first and last name, then click 'Next'

8   Enter some basic information such as your birthday, then click 'Next'

Google

| Month | Day | Year |
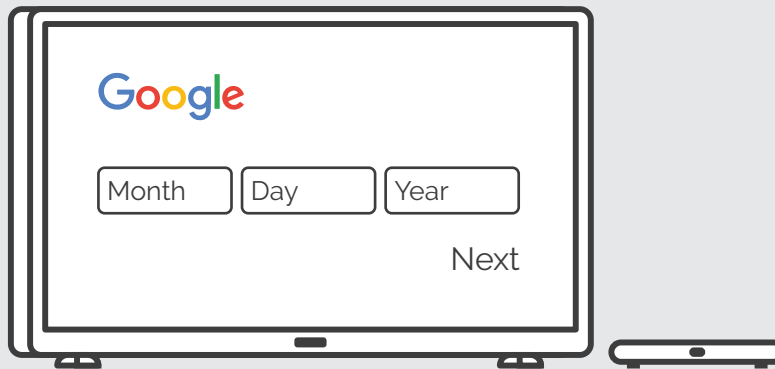

Next

9   Come up with a strong password and click 'Next'
(it may be wise to also write it down somewhere)

10   Enter your phone number for verification, then click 'Next'
(a verification code will be sent to this number)

Google

Phone number

Next

11 Enter the verification code sent to the phone number entered earlier, then click 'Next'

Google

Enter verification code

Reconnecting your Remote Control

In the event your remote disconnects:

1 Point your Rally remote's LED toward the Rally STB and ensure you're no more than 20cm away

20cm
2 Give both the 'Back' and 'Home' buttons a long press at the same time until the LED on the remote is blinking

← + ⌂

3 Success! Your Rally remote should be paired once again

4 To add or remove a different remote, go to the Home page > Device Settings > Remotes and Accessories

Using your TV Remote to control STB

HDMI-CEC allows devices connected to your TV through HDMI ports to communicate back and forth with your TV using your TV remote.

Some TVs may already be enabled and automatically pick up devices connected to the HDMI port on your TV and work out-of-the-box.

1   Ensure your RallyTV STB is connected to your TV's HDMI and turned on. Test to see if you can launch the RallyTV app and navigate the app with your TV remote. If it works, there is nothing more to do!

2   If your TV remote cannot launch or control the app, use your TV remote to go to your TV settings (either from the home screen or by pressing the **Settings** button on your TV remote) and look for **HDMI-CEC**.

Usually, this can be found under the **General Settings** or within a submenu like **Device Manager**, **Hardware Settings**, or **HDMI Settings**.

Select **HDMI-CEC** and turn it **ON**.

3   Go back to your TV home screen and select the RallyTV icon to open the app, you can now use the TV remote buttons to navigate the app and control your Rally STB.

Depending on the make and model of your TV, HDMI-CEC may have a manufacturer trade name:

AOC: E-link
Hitachi: HDMI-CEC
Insignia: INlink
LG: SimpLink or SIMPLINK (HDMI-CEC)
Magnavox: Fun-Link
Mitsunishi: NetCommand or RealLink for HDMI
Onkyo: RIHD (Remote Interactive over HDMI)
Panasonic: HDAVI Control, EZ-Sync, or VIERA Link for CEC
Philips: EasyLink, Fun-Link

Pioneer: Kuro Link
Roku TV: 1-Touch Play
Runco International: RuncoLink
Samsung: Anynet+
Sharp: Aquos Link
Sony: BRAVIA Link, Bravia Sync
**Toshiba:** CE-Link, Regza Link
Vizio: CEC

If you can't locate any reference to HDMI-CEC or your particular manufacturer's trade name for it, you may wish to search for the specific model number of your TV and "HDMI-CEC" for additional information.
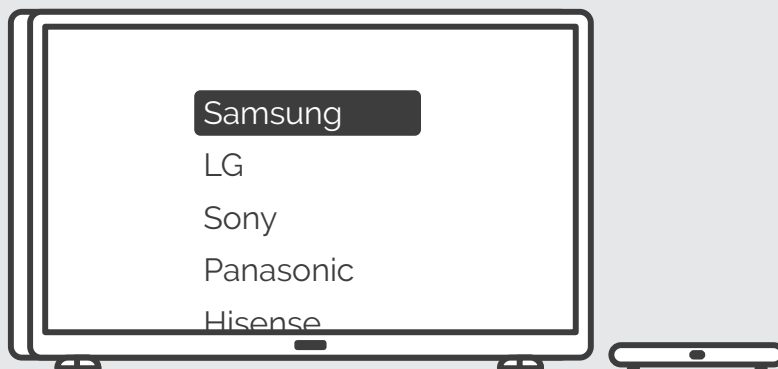

Sync for Audio

1   Select 'Set up remote' to continue, or 'Not now' to end setup

2   If you've continued the remote setup, select which device you'd like to control play the sound from your STB

TV
Soundbar
AV Receiver
3   Select the brand of device you chose to control the sound from your STB (list can be browsed alphabetically)

Samsung
LG
Sony
Panasonic
Hisense

Downloading the RallyTV App

1   Make sure you're signed in to your Google account on your Rally STB (see pg. 7 for how-to)

2   Find the Google Play Store on your STB's home page and open it

**3**   Enter 'Rally TV' in the bar at the top of the page, then search

4   Install the app that looks like the one below (the RallyTV app should be one of the first results)

Rally TV

Rally Enterprises & Communications Corp.
